

FOSOV: Vehicle Telematics and Sensor Technologies Assessment Event

10-12 March 2026

SOFWERX, in collaboration with USSOCOM SOF Acquisition Technology and Logistics Program Executive Office SOF Warrior (AT&L PEO-SW), hosted an assessment event to facilitate product development and/or acquire existing commercial vehicle solutions. The Non-Standard Commercial Vehicles (NSCV) program seeks novel solutions to mitigate the freedom of movement risks associated with modern vehicle telematics systems that contain advanced sensors, GPS, communication systems, and unique data signatures.

Event Outcomes

- 68 Industry participants from 18 organizations presented their technology briefs to the Government team
- Out of 78 submissions, 19 capabilities were selected to brief
- A team of 9 USSOCOM and other government representatives participated virtually and in-person to listen to briefs and have one-on-one conversations with Industry
- USSOCOM will make their decision as to which organizations they will choose to move forward with in the coming weeks
