

~~IMPOSSIBLE~~

# Urban Non-LOS Targeting Systems Feasibility Study

11 - 12 December 2023

## Event Outcomes

SOFWERX, in collaboration with USSOCOM Program Executive Office – SOF Warrior (PEO-SW), will facilitate a series of Feasibility Studies (FS) to develop concepts and components of systems that utilize an open architecture to enable rapid, precise, operator-controlled Non-Line of Sight (Non-LOS) targeting in urban, surveilled environments. Additionally, system level aspects, such as integration, testing, and training, are also considered to ensure fieldable solutions.

- 22 Industry participants from 12 organizations briefed and demonstrated their capabilities to the Government
- Out of 55 submissions, 11 capabilities were selected to present
- A Government representative and contractor had one-on-one conversations with Industry
- USSOCOM will make their decision as to which organizations they will choose to move forward with in the coming weeks
