

# Innovation Cycle 15 Technology Demonstration

03 April 2025

## Event Outcomes

SOFWERX hosted a booth during the Innovation Cycle 15 Technology Demonstration in London, UK. This Technical Demonstration, held by USSOCOM Science and Technology (S&T) Futures and UK Strategic Command (UKStratCom) was a culmination of the 16-19 April 2024 Innovation Foundry 15 (IF15) Event, facilitated by SOFWERX. The Innovation Cycle 15 Tech Demo showcased disruptive technologies focused on Smart Cities in 2035.

- British and American vendors demonstrated their novel and proof of concept technologies
- Demonstration audience members consisted of S&T representatives, acquisition program managers, academia, and UK Government Representatives
- The intent of this demo was to consider follow on technology development with international partners and continue relationships with the technology providers to stay up to date on their progress in innovation
