

SOWERX

MARSOC: Automated Armory Collaboration Event

17 September 2026

Event Outcomes

SOWERX, in collaboration with USSOCOM Marine Forces Special Operations Command (MARSOC), hosted a Collaboration Event to identify innovative technologies and technical approaches that modernize serialized ground ordnance accountability.

- Out of 170 requests to attend, 112 participants were invited to attend
- SOWERX hosted 59 Industry participants, 6 Government representatives, and 2 Academia representatives
- Participants were divided into 7 groups to develop problem statements based on current limitations and ways to overcome. These groups provided a total of 21 problem statements that were prioritized by the group and provided to Government Stakeholders
- These discussion groups fostered an open dialogue to discover how industry and academia can develop a solution that will meet the needs of the operator
