

SOFWERX

MOSI Girls STEAM Mentoring Café Spring 2025

14 February 2025

Event Outcomes

SOFWERX participated in the Girls STEAM Mentoring Café at the Museum of Science and Industry (MOSI) in Tampa, FL, engaging with young women interested in STEM. Through mentorship and discussions, SOFWERX staff shared insights on innovation, collaboration, and the engineering design process—core elements of the SOFWERX mission in support of the United States Special Operations Command (USSOCOM).

- SOFWERX staff encouraged participants to embrace challenges, take pride in their ideas, and confidently stand out - qualities essential to both STEM leadership and the problem-solving mindset valued within the Special Operations Forces (SOF) community.
- At the event, SOFWERX staff fostered a culture of curiosity and resilience, SOFWERX staff helped participants recognize their potential to drive innovation in STEM fields, helping to inspire the next generation of innovators who may one day contribute to the advancement of national security and defense technologies.
