

MOSI STEAM Mentoring Café

16 November 2024

Event Outcomes

SOFWERX, in partnership with The Museum of Science and Industry (MOSI) in Tampa, FL, participated in the Girls STEAM Mentoring Café, engaging 50 young women in hands-on STEM activities and mentorship. The event aligned with the SOFWERX mission to foster innovation, collaboration, and critical thinking, supporting the broader objectives of the United States Special Operations Command (USSOCOM). Participants rotated through structured mentoring sessions led by professionals from diverse scientific and technical backgrounds. SOFWERX staff emphasized the importance of innovation and teamwork while leading five interactive projects designed to inspire creativity and problem-solving skills.

- SOFWERX staff facilitated five STEM-focused activities, highlighting the engineering design process and encouraging teamwork and innovative thinking. These exercises demonstrated practical problem-solving aligned with the challenges faced by the SOF community.
- At the event, SOFWERX staff mentored participants through small-group discussions, showcasing SOFWERX's role in supporting USSOCOM's innovation initiatives. This engagement empowered participants to see themselves as future STEM leaders and innovators.
