

MacDill Air Force Base (AFB) STEM Day 2024

28 March 2024

SOFWERX participated in the 2024 MacDill Air Force Base (AFB) STEM Day held at MacDill Air Force Base in Tampa, Florida. The event proved to be an exhilarating celebration of science, technology, engineering, and mathematics (STEM). Its primary aim was to ignite curiosity and inspire the upcoming generation of innovators, scientists, and engineers. Through a series of interactive exhibits and hands-on challenges, students were given the opportunity to engage in competitions and puzzles crafted to enhance teamwork, critical thinking, and foster a genuine passion for learning.

Event Outcomes

- SOFWERX staff and interns participated at a STEM booth where over 2000 students could learn about SOFWERX
- At our STEM booth during the event, SOFWERX staff and interns facilitated the Minute Math Challenge, providing students with the opportunity to actively engage
- The SOFWERX Minute Math Challenge is designed to nurture quick thinking and adaptability, both essential qualities for navigating complex scenarios. For students aspiring to enter the Special Operations Forces (SOF) or pursue STEM careers, it establishes a fundamental framework for the rapid decision-making skills demanded in dynamic operational environments
