

Science and Technology Small Business Innovation Research (SBIR) 24.4 Release 7

12 September 2024 -
07 February 2025

Event Outcomes

SOFWERX, on behalf of USSOCOM, advertised and conducted market research for a Small Business Innovation Research (SBIR) Phase I Open Topic. This effort involved a solicitation of contract proposals to demonstrate the scientific and technical merit and feasibility of the ideas that appear to have commercial potential.

PHASE I Open Topic:
SOCOM244-P009: Open Topic for Autonomous Precision Timing in Contested/Congested RF Environments

- The SBIR Office received 46 proposals for this Phase I Open Topic
- SOFWERX hosted and coordinated a virtual Q&A session for potential solution offerers to gain a better understanding of this topic before submitting
- After evaluations, the SBIR Office did not select any proposals to be recommended for Phase I award
