

Science and Technology Small Business Innovation Research (SBIR) 24.4 Release 6

07 May 2024 - 01 August 2024

Event Outcomes

SOFWERX, on behalf of USSOCOM, advertised and conducted market research for a Small Business Innovation Research (SBIR) Phase I Open Topic. This effort involved a solicitation of contract proposals to demonstrate the scientific and technical merit and feasibility of the ideas that appear to have commercial potential.

- The SBIR Office received 55 proposals for this Phase I Open Topics
- SOFWERX hosted and coordinated a virtual Q&A session for potential solution offerers to gain a better understanding of this topic before submitting
- After evaluations, the SBIR Office selected 6 proposals to be recommended for Phase I award

PHASE I Open Topic:

SOCOM244-007: Thermal Barrier Minimal Deflection Handguard

SOCOM244-008: Ruggedized Additive Mobile Manufacturing Unit (RAMMU)
