

USSOCOM OTA PIA Training

25 February 2025

SOFWERX, in collaboration with USSOCOM SOF AT&L, hosted a training session for USSOCOM personnel on Other Transactional Agreements (OTA) and Partnership Intermediary Agreements (PIA). Led by Strategic Institute, the goal was to educate Government Acquirers on how to utilize non-FAR contracting mechanisms as well as commercial Business to Business (B2B)/Research and Development (R&D) agreements.

Event Outcomes

- 8 government personnel and supporting contractors participated in-person
- Government Acquirers now have more awareness of how to utilize non-FAR contracting mechanisms and will hopefully spread the knowledge among their peers, creating an environment where these types of mechanisms are used more frequently
- We have hosted this event twice and intend to continue doing so to raise awareness
