

PEO-TIS UxV Payloads against Modern Signals Assessment Event (AE)

03-07 August 2026

SOFWERX, in collaboration with USSOCOM Program Executive Office Tactical Information Systems (PEO-TIS), hosted an Assessment Event to identify potential equipment for participation in the further evaluation of market information and/or ascertain potential market capacity to provide products and services consistent in scope and scale with those described in this notice. The purpose of this effort was to identify potential qualified sources and to explore industry capabilities specific to Electronic Intelligence (ELINT) sensors and related equipment.

Event Outcomes

- 26 Industry participants from 8 organizations presented their technology briefs to the Government team
- Out of 64 submissions, 12 capabilities were selected to brief
- A team of 23 USSOCOM and other government representatives participated in person to listen to briefs, demonstrations, and have one-on-one conversations with Industry
- USSOCOM will make their decision as to which organizations they will choose to move forward with in the coming weeks
